```

# This file defines the dplyr package.
# It defines the dplyr namespace, imports the R6 package, and defines the dplyr function.

# Define the dplyr namespace
dplyr:::dplyr_namespace()

# Import the R6 package
dplyr:::R6 = R6::R6Object

# Define the dplyr function
dplyr:::dplyr = function(...) {
  # Create a new R6 object
  r6_obj = R6::R6Object$new()

  # Set the attributes of the R6 object
  r6_obj$set_attributes(...)

  # Return the R6 object
  r6_obj
}

# Save the dplyr function to the dplyr package
saveR6(dplyr:::dplyr, file = "dplyr.R6")

```
